

Arthur Vercruysse

Developer for semantic Web developers. Building open-source developer tooling, streaming RDF pipelines, and Linked Data clients for the FOSS Semantic Web community. **Same depth, any domain.**

Experience

Ghent University *February 2022 - present*

Remote - PhD in Computer Science Engineering

Researching live, provenance-tracked knowledge graphs – built RDF-Connect and the Semantic Web Language Server to support this work.

DPG Media IT *September 2021 - February 2022*

Remote - Full Stack Developer

Developed and maintained the OIDC login system spanning DPG Media's entire portfolio of products, including automatic SSO and multi-tenancy.

Redpencil.io *June 2021 - September 2021*

Ghent - Backend Developer (Student Job)

Improved code quality and performance across the microservice-based [mu-semtech](#) open linked data stack, and expanded its feature set.

Sigasi nv *July 2020 - September 2020*

Ghent - Backend Developer (Internship)

Assisted R&D with improving code quality and performance across Sigasi Studio, an Eclipse-based editor.

Zeus WPI *July 2019 - June 2020*

Ghent University - Vice President

Co-organized events and led the student hacker space [Zeus WPI](#).

Software Contributions

Semantic Web Language Server [GitHub](#)

Main Contributor

Implemented intellisense support for Semantic Web languages like Turtle and SPARQL, reaching 5,000+ installs and improving developer productivity and error detection.

RDF-Connect [GitHub](#)

Main Contributor

Developed streaming, cross-environment data pipelines with built-in provenance using RDF, adopted across the research lab and used in production projects.

LDES Client [GitHub](#)

Main Contributor

Built an asynchronous client to consume Linked Data EventStreams with relation filtering, facilitating real-time data integration.

Ghent, Belgium

Education

Ghent University

Master of Science in Computer Science

September 2019 - June 2021

Bachelor of Science in Computer Science

September 2016 - June 2019

Publications

The Semantic Web Language Server:

Enhancing the Developer Experience for Semantic Web Practitioners

Vercruysse, J. Rojas Melendez, Pieter Colpaert

RDF-Connect: A Declarative Framework for Streaming and Cross-Environment Data Processing Pipelines

Vercruysse, J. Pots, J. Rojas Melendez, Pieter Colpaert

Museum Monitoring: An Environmental Monitoring Dataspace Using The Things Network, Solid, and LDES

Vercruysse, B. De Meester, J. Rojas Melendez, D. Suls

Technologies

Programming: Rust, Java, Python, C, C++, TypeScript, Common Lisp, Haskell

Frameworks: Rocket, Tokio, Svelte

Software: Unix, Git, MongoDB, LaTeX

Hobbies

Climbing boulders up to 7a, with regular trips to Fontainebleau.

Creating a custom importer and visualizer for Beancount (plain-text accounting).

Renovating my house, one room at a time.
