

Arthur Vercruysse

Computer scientist Embracing challenging problems with no apparent simple solution. Contributing to the FOSS (Free and Open-Source Software) community.

Experience

- **PhD Student Ghent University**

Remote - Full-time employment

Februari 2022 - present

Generating and maintaining linked data live knowledge graphs, with provenance.

- **DPG Media IT**

Remote - Full-time employment

September 2021 - Februari 2022

Developing and maintaining OIDC login system over multiple domains, including automatic SSO and multiple tenancy.

- **Redpencil.io**

Ghent - Student Job

June 2021 - September 2021

Optimize and expand microservice based [mu-semtech](#) open linked data stack.

- **Sigasi nv**

Ghent - Internship

July 2020 - September 2020

Assisting R&D with the development of Sigasi studio (eclipse based editor).

- **Zeus WPI**

Ghent University - Vice President

July 2019 - June 2020

Co-organizing events and leading student hacker space [Zeus WPI](#).

- **High Performance Computing**

Ghent University - Student job

July 2019 - December 2019

Assisting R&D and backend development on hpc cluster overview.

Software Contributions

- **Semantic Web Language Server**

Main Contributor

Implemented intellisense support for Semantic Web languages like Turtle and SPARQL, improving developer productivity and error detection.

- **RDF-Connect**

Main Contributor

Developed streaming, cross-environment data pipelines with built-in provenance using RDF, enabling reliable multilingual data processing.

- **LDES Client**

Main Contributor

Built an asynchronous client to consume Linked Data EventStreams with relation filtering, facilitating real-time data integration.

- [Ghent, Belgium](#)

Education

- **Ghent University**
 - Master of Science in **Computer Science**
September 2019 - June 2021
 - Bachelor of Science in **Computer Science**
September 2016 - June 2019

Technologies

- **Programming:**
Rust, Java, Python, C, C++, TypeScript, Common Lisp, Haskell
- **Frameworks:**
Rocket, Tokio, Svelte
- **Software:**
Unix, Git, MongoDB, LaTeX

Extra

- **Active board member** of the student hacker space [Zeus WPI](#), with a passion for open source software.

Hobbies

- **Climbing** to the top with recreational bouldering.
- **Creating** seemingly useless applications.
- **Tinkering** with Unix systems like servers, raspberry pi, ...
